

RAMSEY WINCH

RPH-133.4

- Rated Line pull 133.4 kN
- Recommended cable 20 mm
- Motor spool directional control valve required
- Standard air shift
- EN 14492-1 Compliant
- Made in the USA

RPH-133.4 Features

- Spring applied, hydraulic released multi disc brake
- High efficiency planetary gear set
- Foot mount or mid mount
- Fairlead and cable tension optional
- Air operated free spool
- Manual or air operated free spool

Applications

- Towing & Recovery
- Petroleum
- Forestry
- Mining
- Construction
- Refuse

Specifications

Rated Line Pull 133.4 kN
Gear Reduction 31:89:1
Weight 261 kgs

LAYER OF CABLE		1	2	3	4
*RATED LINE PULL PER LAYER	kN	133.4	111.2	95.3	83.3
*CABLE CAPACITY	M.	10	25	42	62
*LINE SPEED (at 56.7 LPM)	MPM	5.5	6.3	7.2	8.5

* These specifications are based on recommended wire rope of 20 mm 1960 grade wire rope and a 195 cc motor (11.9 Cu in/Rev.). Relief valve set to 207 bar (3000 psi) which is the rating capacity limiter.
